Suitable for every Healy

Water -inform and energize it!

A Special Kind of Healy Application

If you want to produce special healthy water, then inform it yourself!

Place a glass bottle of clear, non-carbonated filtered water on this flower of life (about 6 minutes or longer).

Or use a writing with the words love, trust, connection, bliss, happiness, friendship, health or gratitude (about 6 minutes or longer).

Place your Healy besides your daily ration of water, at least 2 litres. Neutral glass bottles are optimal.

Healy Resonance: Select any program, e.g. Bach Flowers, and vibrate it onto the water for 17 seconds. Be very concentrated. Your consciousness forms the bridge!

Healy Gold to HHH+: Choose any program, e.g. Energy, or Kidneys (or any other), let this program run the whole time. Treat yourself and the water the same time.

Drink your informed water during the day. The next morning, inform your daily ration of water fresh again. Especially suitable for: Babies, children, animals, plants, (electro-)sensitive people who want to start very gently with the Healy, people who are not allowed to use the Healy with wristband electrodes due to contraindications.
