Meridians

Program Group

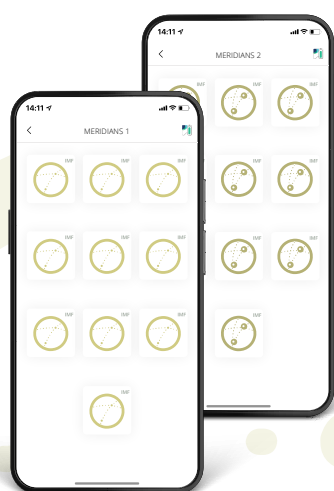

Channel the energy flow of life (Qi) with the ancient lore of Meridians!

The modern technology of Microcurrent Application can be used to stimulate and positively influence the Bioenergetic Field of certain organs. The epic program groups of Meridians 1 & 2 accommodate twenty unique Individualized Microcurrent Frequency (IMF)¹ programs to harmonize the Bioenergetic Field of the individual Meridians.

DID YOU KNOW?

The ancient understanding of the Meridians is based on the spiritual concepts of Traditional Chinese Knowledge, claiming that our life-energy, the so-called Qi, flows in channels, or meridians. According to this, twelve main channels exist and each meridian is assigned to a functional circle (organ system). Along these twelve energy pathways corresponding acupuncture points are threaded onto like pearls on a string. Each of them having a specific connection to a certain organ.

Mental Balance Program Group

Maintaining mental balance is a cornerstone of overall wellbeing

The human being in its entirety is a unity consisting of body, mind and soul. As psychosomatics have already shown, mental imbalances can cause physical symptoms and vice versa. We believe if our so-called inner or soul life is in harmony, we are balanced and vital. Traumatic experiences are partly unconscious experiences that can have negative and disbalancing effects on the physical, mental and spiritual levels.

Healy World developed eight different Microcurrent Frequency Programs to bioenergetically harmonize your mental balance.

¹ "Individualized Microcurrent Frequencies" ("IMF") is a proprietary technology of Healy World. It uses the data from a physical noise generator to assign a priority to frequencies that professional user experience indicates have the highest relevance for the user. The duration, frequencies, intensity, frequency, naming, and the descriptions of the Individualized Microcurrent Frequency (IMF) programs are based on the practical experience of Nuno Nina and other experts and our understanding of the interaction of frequency modulated microcurrent with the Bioenergetic Field. They have not been confirmed by independent studies. The Healy Individualized Microcurrent Frequency (IMF) programs are designed to support wellbeing through harmonization of the Bioenergetic Field. We have conducted unblinded before/after surveys in controlled and randomized groups of participants. These surveys suggest that the participants' wellbeing was higher after the application. We attribute this to the harmonization of the Bioenergetic Field, which we refer to as the energy flow of life, traditionally also called chi (or qi) and prana. This has not been confirmed by independent studies.
